附件一 C 背面（冷凍劍旗魚漁業證明書）

ICCAT SWORDFISH STATISTICAL DOCUMENT INSTRUCTION SHEET

Pursuant to the 2001 ICCAT recommendation, swordfish imported into the territory of a Contracting Party or upon first entry into a regional economic organization must be accompanied by an ICCAT Swordfish Statistical Document (SWD) beginning January 1, 2003. Swordfish dealers who export or import swordfish from all ocean areas will be required to complete the appropriate sections of the SWD. Only complete and valid documents will guarantee that shipments of swordfish will be allowed to enter the customs territory of Contracting Parties (e.g., Japan, Canada, U.S., Spain, etc.). Improperly documented swordfish shipments (i.e., the SWD is either missing from the shipment, incomplete, invalid or falsified) will be considered illegitimate and contrary to ICCAT conservation efforts. Entry of improperly documented swordfish will be suspended (PENDING RECEIPT OF A PROPERLY COMPLETED DOCUMENT) into the customs territory of a Contracting Party or subject to administrative or other sanctions.

Please use the instructions below as a guide to complete the sections that apply to Exporters, Importers, and Government Validation. If a language other than English is used for description, please add an English translation either on the SWD or on a separate paper. Note: if a swordfish product is exported directly from the harvesting Country/Entity/Fishing Entity to a

Contracting Party, without going through an intermediate Country/Entity/Fishing Entity, all fish can be identified on one document. However, if the swordfish product is exported through an intermediate Country/Entity/Fishing Entity (i.e., a Country/Entity/Fishing Entity other than the Country/Entity/Fishing Entity which is the final destination of the product), separate documents must be prepared for fish destined for different final destinations, or only one fish may be identified on a document to cope with any possible separation in an intermediate Country/Entity/Fishing Entity. Import of swordfish parts other than meat (i.e., heads, eyes, roe, guts, tails) may be allowed entry without an accompanying SWD.

DOCUMENT NUMBER: This block is for the issuing Country/Entity/Fishing Entity to designate a country coded Document Number.

- (1) FLAG COUNTRY/ENTITY/FISHING ENTITY - Fill in the name of the Country/Entity/Fishing Entity of the vessel that harvested the swordfish in the shipment and issued this Document. According to the ICCAT Recommendation, only the flag state of the vessel that harvested the swordfish in the shipment, or, if the vessel is operating under a chartering arrangement, the exporting state, can issue this Document.
- (2) DESCRIPTION OF VESSEL (if applicable): Fill in the name, registration number, length overall (LOA) and ICCAT Record number of the vessel that harvested the swordfish in the shipment.
- (3) POINT OF EXPORT - Identify the City and State or Province, and country/entity/fishing entity from which the swordfish was exported.
- (4) AREA OF CATCH - Check the area of catch.
- (5) DESCRIPTION OF FISH - The exporter must provide, to the highest degree of accuracy, the following information. (NOTE: One row should describe one product type.) (1) Product type: Identify the type of product being shipped as either FRESH or FROZEN, and in ROUND, GILLED AND GUTTED, DRESSED, FILLET or OTHER form. For OTHER, describe the type of products in the shipment; (2) Time of Harvest: Fill in the time of harvest (month and year) of the swordfish in the shipment; (3) Gear Code: Identify the gear type which was used to harvest the swordfish using the listed codes; (4) Net weight: Net product weight in kilograms.
- (6) EXPORTER CERTIFICATION - The person or company exporting the swordfish shipment must provide his/her name, signature, address, date the shipment was exported, and dealer license number (if applicable). For countries that have adopted the ICCAT alternative minimum size for swordfish the exporter must certify that the listed Atlantic swordfish are greater than 15 kg (33 lb.) or if pieces, the pieces were derived from a swordfish weighing >15 kg.
- (7) GOVERNMENT VALIDATION - Fill in name and full title of the official signing the SWD. The official must be employed by a competent authority of the flag state government of the vessel that harvested the swordfish appearing on the SWD or other individual or institution authorized by the flag state or if the vessel is operating under a charter arrangement, by a government official or other authorized individual or institution of the exporting state. Net weight must also be certified and recorded. The substitutional measure described in paragraphs A-D of the *Resolution by ICCAT concerning Validation by a Government Official of the Bluefin Tuna Statistical Document*, adopted by the Commission in 1993, may be applied to the above requirements for the validations in this Swordfish Statistical Document Program.
- (8) IMPORTER CERTIFICATION - The person or company that imports swordfish must provide their name, signature, address, date the swordfish was imported, license number (if applicable) and final point of import. ICCAT SWORDFISH STATISTICAL DOCUMENT INSTRUCTION SHEET

Pursuant to the 2001 ICCAT recommendation, swordfish imported into the territory of a Contracting Party or upon first entry into a regional economic organization must be accompanied by an ICCAT Swordfish Statistical Document (SWD) beginning January 1, 2003. Swordfish dealers who export or import swordfish from all ocean areas will be required to complete the appropriate sections of the SWD. Only complete and valid documents will guarantee that shipments of swordfish will be allowed to enter the customs territory of Contracting Parties (e.g., Japan, Canada, U.S., Spain, etc.). Improperly documented swordfish shipments (i.e., the SWD is either missing from the shipment, incomplete, invalid or falsified) will be considered illegitimate and contrary to ICCAT conservation efforts. Entry of improperly documented swordfish will be suspended (PENDING RECEIPT OF A PROPERLY COMPLETED DOCUMENT) into the customs territory of a Contracting Party or subject to administrative or other sanctions.

Please use the instructions below as a guide to complete the sections that apply to Exporters, Importers, and Government Validation. If a language other than English is used for description, please add an English translation either on the SWD or on a separate paper. Note: if a swordfish product is exported directly from the harvesting Country/Entity/Fishing Entity to a Contracting Party, without going through an intermediate Country/Entity/Fishing Entity, all fish can be identified on one document. However, if the swordfish product is exported through an intermediate Country/Entity/Fishing Entity (i.e., a Country/Entity/Fishing Entity other than the Country/Entity/Fishing Entity which is the final destination of the product), separate documents must be prepared for fish destined for different final destinations, or only one fish may be identified on a document to cope with any possible separation in an intermediate Country/Entity/Fishing Entity. Import of swordfish parts other than meat (i.e., heads, eyes, roe, guts, tails) may be allowed entry without an accompanying SWD.

DOCUMENT NUMBER: This block is for the issuing Country/Entity/Fishing Entity to designate a country coded Document Number.

- (1) FLAG COUNTRY/ENTITY/FISHING ENTITY - Fill in the name of the Country/Entity/Fishing Entity of the vessel that harvested the swordfish in the shipment and issued this Document. According to the ICCAT Recommendation, only the flag state of the vessel that harvested the swordfish in the shipment, or, if the vessel is operating under a chartering arrangement, the exporting state, can issue this Document.
- (2) DESCRIPTION OF VESSEL (if applicable): Fill in the name, registration number, length overall (LOA) and ICCAT Record number of the vessel that harvested the swordfish in the shipment.
- (3) POINT OF EXPORT - Identify the City and State or Province, and country/entity/fishing entity from which the swordfish was exported.
- (4) AREA OF CATCH - Check the area of catch.
- (5) DESCRIPTION OF FISH - The exporter must provide, to the highest degree of accuracy, the following information. (NOTE: One row should describe one product type.) (1) Product type: Identify the type of product being shipped as either FRESH or FROZEN, and in ROUND, GILLED AND GUTTED, DRESSED, FILLET or OTHER form. For OTHER, describe the type of products in the shipment; (2) Time of Harvest: Fill in the time of harvest (month and year) of the swordfish in the shipment; (3) Gear Code: Identify the gear type which was used to harvest the swordfish using the listed codes; (4) Net weight: Net product weight in kilograms.
- (6) EXPORTER CERTIFICATION - The person or company exporting the swordfish shipment must provide his/her name, signature, address, date the shipment was exported, and dealer license number (if applicable). For countries that have adopted the ICCAT alternative minimum size for swordfish the exporter must certify that the listed Atlantic swordfish are greater than 15 kg (33 lb.) or if pieces, the pieces were derived from a swordfish weighing >15 kg.
- (7) GOVERNMENT VALIDATION - Fill in name and full title of the official signing the SWD. The official must be employed by a competent authority of the flag state government of the vessel that harvested the swordfish appearing on the SWD or other individual or institution authorized by the flag state or if the vessel is operating under a charter arrangement, by a government official or other authorized individual or institution of the exporting state. Net weight must also be certified and recorded. The substitutional measure described in paragraphs A-D of the *Resolution by ICCAT concerning Validation by a Government Official of the Bluefin Tuna Statistical Document*, adopted by the Commission in 1993, may be applied to the above requirements for the validations in this Swordfish Statistical Document Program.
- (8) IMPORTER CERTIFICATION - The person or company that imports swordfish must provide their name, signature, address, date the swordfish was imported, license number (if applicable) and final point of import. This includes imports into intermediate countries, entities or fishing entities. For fresh and chilled products, signature of the importer may be substituted by person of a custom clearance company when the authority of signature is properly accredited to the company.
